

ULTRA MOBILE NAMED FASTEST GROWING PRIVATE COMPANY IN AMERICA, TAKES TOP HONORS ON 2015 INC. 500 LIST

Nationwide Carrier Records 2014 Revenue of \$118M - an Increase of Over 100,000%

New York, NY and Costa Mesa, CA – August, 12, 2015 – [Ultra Mobile](#), a nationwide mobile carrier developing first-of-its-kind mobile phone services and unlimited international communications, has today been named Inc. Magazine's Fastest Growing Private Company in America for 2015. Over the past three years, Ultra Mobile has recorded revenue growth of 100,849 percent, with 2014 gross revenue of \$118.2M, earning the company the number one ranking on the prestigious list.

Ultra Mobile focuses on cost effective talk, text and data offerings, with unlimited international calling to 60 countries. The company sells over one million SIM cards per year; available in 7,000 independent wireless stores and over 25,000 retail stores including Target, 7-Eleven and CVS. Customers can recharge their plan at over 60,000 stores.

"Our founding team is incredibly honored to be named America's fastest growing private company by Inc. Magazine," said Ultra Mobile Co-Founder and CEO, David P. Glickman. "Through our partnership with T-Mobile and our increasing reach into retail stores, we're continuing to democratize communication for millions of underserved people; that is, those who want to stay in touch with family, friends and business overseas. We are excited by this recognition and believe that this is just the beginning for Ultra Mobile."

"Like T-Mobile, Ultra is growing like gangbusters because they give their customers great value and a high-quality service on a blazing fast LTE network," said Mike Sievert, T-Mobile's Chief Operating Officer. "It's so great to see an exclusive T-Mobile partner topping the Inc. 500 this year. Congratulations to the entire Ultra Mobile team!"

While Ultra Mobile joins an incredible list of companies that have won the prestigious award, 2015 also marks the second time that Mr. Glickman, Ultra Mobile's CEO and serial entrepreneur, has taken a company to number one position. In doing so he becomes the first individual ever to bring two different companies to number one in the rankings. In 1998, Mr. Glickman's telecom business, Justice Technology, took the top spot.

Ultra Mobile leverages a trusted network of retailers and distributors who have come to count on its strong customer service, ease of activation, honesty and transparency. Ultra Mobile offers consumers the most affordable and unique international mobile plans starting as low as \$19. The \$19 plan includes unlimited calling and texting throughout the United States and to 11 countries including Canada, China, Mexico and the United Kingdom. It also includes 100MB of 4G LTE data. Other plans are available from \$29-\$59 and include features such as free international calling to more than 60 countries and larger data buckets for heavy data users.

About Ultra Mobile

Founded in 2011, [Ultra Mobile](#) is a pre-paid nationwide carrier that focuses on delivering innovative, cost effective mobile voice, text and data services for people living in the United States who regularly call or text internationally.
